Champion Traveler Honors: The Best Sustainable, Organic Wineries Near Napa

As avid travelers we want the best of the best as we spend our time and money on experiences around the world. Each year we honor several fabulous locations and establishments by including them in our Champion Traveler Honors. Napa Valley is known for its wines but California is also known for their environmentally-friendly governmental policies and business owners (large and small). We're proud of these wineries for making the necessary changes needed to keep the wine flowing and our planet healthy for generations to come. Here are our selections for the best sustainable and/or organic wineries in Napa Valley:

Far Niente Wineries

We believe in the value of vineyard ownership as a means of producing wines of exceptional quality, distinctive character and consistency year after year. The ability to make autonomous decisions about the vineyards provides the winemaking team with a great amount of control and flexibility, while ensuring the high quality care of the vines. Far Niente owns 300 vineyard acres located in some of the most coveted regions of the Napa Valley.
